Summary

Full Stack Developer and Electrical and Computer Engineering graduate from the National Technical University of Athens, building production web applications with React, Next.js, Python, and Django. Experienced in internal business systems, REST APIs, data-driven workflows, and responsive interfaces, with a focus on maintainable and reliable software.

Work Experience

Full Stack Developer Nov 2025 – Present
Mitsis Group
- Develop and maintain production web applications supporting hotel operations, workforce management, budgeting, reporting, and financial processes.
- Build full-stack features with Python/Django, JavaScript/React/Next.js, and SQL, integrating internal and enterprise data sources through APIs and automated workflows.
- Improve application reliability and performance by debugging production issues, optimizing database queries, and automating data-intensive business processes.

IT Support Specialist & Technical Support (Military Service) Nov 2024 – Nov 2025
Hellenic Air Force
- Delivered technical support and resolved hardware, software, printer, and network issues remotely and onsite.

Web Developer Apr 2024 – Nov 2025
BUYNOCODEAPPS / blupry.io
- Developed reusable no-code components with React, HTML, JavaScript and CSS, while contributing to testing, debugging, maintenance, and GitHub-based development workflows.

E-Commerce Web Developer & Support Staff Apr 2024 – Oct 2024
PYROTECHNICA ENGINEERING HELLAS MON. IKE
- Maintained and enhanced a WordPress/WooCommerce e-commerce platform using PHP/CSS and supported inventory, invoicing, and order workflows through Atlantis ERP.

Developer Internship (Full Stack) Jun 2022 – Jul 2022
Libra AI Technologies / libramli.ai
- Developed React interfaces and supported C# back-end development, data management, REST API integration, and Agile workflows.

Education

2018 – 2024 **Diploma in Electrical and Computer Engineering**, National Technical University of Athens
Diploma Thesis: The Debates of the Greek Parliament as Open Linked Data

2013 Certificate of Competency in English, University of Michigan

Publication

A Semantic Framework for Exploring the Greek Parliament Debates: An Intelligent Service Implementation
IEEE International Conference on Semantic and Social Media Adaptation & Personalization (SMAP), 2025
DOI: 10.1109/SMAP66932.2025.00009

Skills

Languages	JavaScript, Python, SQL, C#
Front-End	React, Next.js, HTML, CSS, Tailwind CSS
Back-End	Django, Flask, Node.js, REST APIs
Data & Infrastructure	SQL Server, Redis, Docker, Celery, WebSockets
Developer Tools	Git, GitHub, Linux
Other	WordPress, WooCommerce | Greek (Native), English

Volunteering

TEDxNTUA – Organizer & IT Team *2023 – 2024*
Developed and maintained the TEDxNTUA archive and 2024 event websites using React.js, contributing to Frontend development and website maintenance.

Stavros Niarchos Foundation Cultural Center (SNFCC) *2024 – 2025*
Supported cultural events and visitor-facing activities as a volunteer.
